HOMEOWNERSHIP

## Training Reminder for New Minnesota Housing Mortgage Loan Programs - Start Up, Step Up and HOME HELP

Minnesota Housing is just a few weeks away from launching our new mortgage loan programs.

**Register today** for the final Webinar training opportunities of the year to learn about the new Start Up and Step Up programs, as well as the updated downpayment and closing cost loan options. If you cannot attend the Webinar on December 4, additional training sessions will be held on January 9 and 23. In addition, a recorded Webinar will be posted to the website by December 10.

Please note, all training sessions summarize new program requirements and changes and do not substitute full-length trainings for lenders new to Minnesota Housing or qualify lenders to originate HOME HELP loans.

If you are a new HOME HELP lender, please register separately for the full-length HOME HELP training on December 13 or January 17.
